

END CHILD POVERTY BUS TOUR

MOBILIZING CALIFORNIA COMMUNITIES FROM
SAN DIEGO TO SACRAMENTO | MAY 17-20

**END
CHILD
POVERTY**
in California

California has more children living in poverty than any other state. One in five California children lives in poverty. That's almost 2 million children—with 450,000 of those children living in families trying to survive on less than \$12,900 per year. But we have a comprehensive plan to end deep child poverty. We need parents, children, and communities across California to demand action. **Let's Pass the Plan.**
