Office of Continuous Care

Consisting of the departments of Home Care at Carondelet Center, Health Services and the Community Life Team at St. John of God Care Center, the **Office of Continuous Care** was established to centralize the various areas of supportive health and wellness services within the LA province. Such centralization provides an environment of integrated support for all sisters regardless of age, location and particular need through the provision of resources, case management and social services. Each e-newsletter will highlight one of the departments within Continuous Care.
